

COMPANY PROFILE · 2026

Building landscapes.
**Defining
spaces.**

About Company

ArchGeo Landscape & Construction Limited is a Kenyan design and construction firm with one vision: creating transformative design solutions for our clients.

We specialise in Architectural, Landscape and Interior Design, Project Management, and ongoing Maintenance. Our parent company, ArchGeo Consultants Ltd, was established in 2016 — and from that solid foundation, ArchGeo Landscape & Construction Ltd was incorporated. In just a few years we have grown into one of Kenya's most respected quality construction firms.

We were established to give clients a complete, all-round solution — design excellence and construction precision under one roof — removing the hassle of engaging multiple companies.

From hotels and resorts to wedding gardens, residential developments, office blocks, parks, villas, commercial complexes, recreational facilities and rehabilitation centres, our portfolio spans the breadth of Kenya's built environment.

Vision & Mission

01

Our Vision

To offer standard, precise and exemplary services in architectural, landscape & interior design and project management — setting the benchmark for Kenya's construction industry and beyond.

02

Our Mission

To remain competent, time-bound and efficient in the delivery of results — driving Kenya's construction industry forward through quality, honesty and unwavering reliability on every project.

Core Values

What guides us on every project — from the first conversation to the final handover.

01

Client-Centred Attitude

We create harmony between our clients and the company — prioritising their vision, their goals and their satisfaction at every stage of a project.

02

Corporate Culture

We nourish a workplace full of energy, collaboration and open communication. Our people are our greatest asset and the engine behind exceptional delivery.

03

Precision & Uniqueness

Every concept, design and management process is standard-compliant and uniquely crafted — because your project deserves more than a template solution.

04

Quality & Client Satisfaction

An uncompromising pursuit of quality, precision and client delight — measuring success not just in metres built, but in lasting satisfaction.

Our Services

Six disciplines, one accountable team — from the first sketch to the final planting.

Landscape Design & Implementation

Full-cycle landscape services: pre-design analysis, concept development, site plans, cost estimates, 3D perspectives, material selection, construction documentation, implementation and maintenance reporting.

Architectural & Interior Design

Sketch designs through to construction drawings — floor plans, working drawings, detailed designs, materials schedules and full submission packages for regulatory approvals.

Environmental Impact Analysis

Comprehensive Environmental Audits and Impact Assessments conducted in full compliance with NEMA regulations and international environmental best practice.

Project Planning & Management

End-to-end project management with financial advice and cost-saving techniques that protect client investment without compromising quality or timelines.

Sustainable Urban Design

Storm water management, solid waste management and green technology strategies that promote social sustainability, climate resilience and lasting livability.

Urban Management

Urban management services across social amenities and infrastructure — fostering community wellbeing through thoughtful, people-centred environment design.

Our Process

A clear, four-stage journey that keeps every project on brief, on budget and on time.

01

Concept & Brief

We engage the client to understand vision, site conditions, budget and desired outcomes, translating ideas into a clear project brief.

02

Design & Documentation

Concept sketches evolve into detailed designs, site plans, 3D perspectives, materials schedules and full construction documentation.

03

Implementation

Our skilled team brings the design to life with precision — managing every phase from earthworks and hardscaping to planting and irrigation.

04

Handover & Maintenance

Client reports, maintenance schedules and ongoing support ensure your landscape thrives long after project completion.

Why Choose Us?

Four reasons clients across Kenya trust ArchGeo with their most important spaces.

01

One-Stop Design & Build Partner

From concept sketches to handover, design vision and construction precision sit under one accountable team — no juggling multiple vendors.

02

Proven Multi-Sector Portfolio

Hotels, resorts, residential estates, master-planned cities and railway stations — your brief is never new territory for our team.

03

Sustainability at Every Stage

Indigenous species, efficient irrigation, stormwater management and NEMA-compliant processes are woven into every design from day one.

04

Deadline-Driven Delivery

We are time-bound by design. Milestones are met, budgets are respected and clients are kept fully informed at every stage.

“

ArchGeo is a well coordinated landscape architectural company which works within stipulated contract period and project budget to deliver clients expectations. The team can collaborate effectively with other professionals such as architects, engineers, quantity surveyors and interior designers to achieve cohesive project outcomes. Highly recommended.

Client Voices

★★★★★

"ArchGeo transformed our property completely. The attention to detail, the quality of workmanship, and the way they understood our vision from the first meeting was exceptional. Highly recommended. Lakehouse remains a dream to us."

Dr. Judy N.
Tahi Lake House, Naivasha

★★★★★

"The team brought creative solutions to a very challenging steep site. The terracing, lighting, and material choices came together beautifully. Our home has never looked better."
